

**Hey,**

First of all, thank you for purchasing Lingley theme. Now you can publish your site in a few minutes. You'll just have to change text & images and you are good to go. Ready?

### **First of all, Edit HTML**

1. Open “.html” file and locate text at around row 66
2. Change text to fit your needs.

### **Change Images**

1. Images are located in “assets/images/”
2. Copy and paste your images into a folder
3. Open “.html ” file and change an image name under <divclass=”item”>

### **Add More Images**

1. Open “.html” file and locate current images.
2. Copy and paste <div class=”item”> content and change an image name.
3. Paste new images into “assets/images/” folder.

That's it, now you can upload your site and send it to your friends. If you have any questions or need some help, let us know at [team@dorkoy.com](mailto:team@dorkoy.com)
